

Mushroom Research Vol.11 (1) 2002

SN	Title	Authors
1.	Some interesting mushrooms from Punjab plains	Amanjeet Kaur and NS Atri
2	<i>Termitomyces umkowaani</i> (Cooke & Mass.) Reid-an edible mushroom from the Western Ghats	KB Vrinda, CK Pradep and TK Abraham
3	<i>Russula flavida</i> Frost & Peck – an addition to the Indian ectomycorrhizic fungi	Kanad Das, JR Shurma and RP Bhatt
4	Fluctuations in pH and temperature in the compost and compost – casing interface – their effect on yield of <i>Agaricus bisporus</i>	OP Ahlawat
5	Persistence of Diflubenzuron and Carbendazim in the white button mushroom, <i>Agaricus bisporus</i>	Satish Kumar and SR Sharma
6	Yield response of <i>Pleurotus florida</i> on wheat straw in combination with other substrates	Ashish K Jain and Deepak Vyas
7	Correlation of cellulase and laccase activities with coirpith decomposition by white rot fungi	M Theradimani, T Marimuthu, S Juliet Hepziba and K Siddeswaran
8	Suitability of certain newer plant wastes for production of Oyster mushroom (<i>Pleurotus citrinopileatus</i>)	Gunjan Gogoi and RK Adhikary
9	Comparative studies on nematophagus activity of various <i>Pleurotus</i> species	VP Sharma, Arti Shukla and Gaytri Bhardwaj
10	Influence of supplements on the yield of paddy straw mushroom <i>Volvariella diplasia</i> (Berk. & Br.) Singer	Saroj Kumar and SP Singh
11	Impact of training programme on knowledge and adoption of mushrooms cultivation	MP Sagar
12	Antimicrobial activity of <i>Podaxis pistillaris</i> and <i>Phellorinia inquinans</i> against <i>Pseudomonas aeruginosa</i> and <i>Proteus mirabilis</i>	Charu Panwar and DK Purohit
13	Mushroom production as successful agri-business in Haryana	Ajay Singh and Surjeet Singh
14	Coir-pith – a cheap spent waste for oyster mushroom production	D Geetha, AS Sherin, M Suharban and M Vijayan
15	Antifungal effect of the mushroom, <i>Podaxiz pistillaris</i> on <i>Aspergillus niger</i>	Charu Panwar, Renu Parihar and DK Purohit
