

Mushroom Research Vol.17 (2)2008

SN	Title	Authors
1	New records of genus <i>Amanita</i> Pers. section <i>Vaginatae</i> (Fr.)Quel. from India	Munruchi Kaur, NS Atri and Yadwinder Singh
2	Diversity analysis in button mushroom by biochemical marker	V Prakasham and RP Singh
3	Determination of bio-active compounds in medicinal mushroom, <i>Cordyceps sinensis</i>	RK Arora, RP Singh and SK Guru
4	<i>Favolaschia</i> – a new genus record for India	CK Pradeep, KB Vrinda and Shibu P Varghese
5	<i>Pseudocolus grandis</i> from Southern India	V Kumaresan, T Ganesan and D Rajarajan
6	Effect of qualities of calcium sulphate and calcium carbonate on spawn preparation in the button mushroom, <i>Agaricus bisporus</i>	Ajay Singh, Anjum Varshney and RC Upadhyay
7	Determination of seasons and substrates for paddy straw mushroom cultivation in Tripura	Subrata Biswas and NP Singh
8	Evaluation of local substrates for cultivation of <i>Ganoderma lucidum</i> in mid-hills of Uttarakhand Himalayas	PS Negi, PR Koranga, Ranjit Singh and Z Ahmed
9	Studies on seasonal abundance of mushroom flies	Parveen Kumar, KK Mrig, HR Rohila and S Singh
10	Molecular diagnosis of <i>Fusarium</i> rot and Shaggy stipe disease associated with the cultivation of <i>Agaricus bisporus</i> mushroom	VP Sharma, SK Singh, Satish Kumar and SR Sharma
11	Development and evaluation of substrate mixing drum for pre-wetting of button mushroom cultivation	T Arumuganathan, RP Tewari, Rajesh Kumar and Vinay Kumar Khare
