

Mushroom Research Vol.2 (2) 1993

SN	Title	Authors
1	Effect of elevated temperature and carbon dioxide concentration of the mushroom growing environment on agronomic characteristics of tropical <i>Agaricus bitorquis</i> isolates	VS Pahil, JF Smith and TJ Elliott
2	In <i>Sacco</i> digestibility of paddy straw used for the cultivation of <i>Pleurotus citrinopileatus</i>	K Natarajan, V Kaviyaran and R Kadirvel
3	Antigenic/allergenic analysis of basidiospores of <i>Pleurotus</i> spp.	Dev Mittar, PK Khanna, AS Grewal, Swarnjit Singh, APS Mangat and HS Garcha
4	<i>Pleurotus platypus</i> : a potent oyster mushroom for organic recycling of agricultural wastes	P Nallathambi and T Marimuthu
5	Cultivation of <i>Lentinus lepideus</i> in Mexico – Production of fruiting bodies on coniferous wood shavings	R Gaitan-Hernandez, G Mata and G Guzman
6	Evaluation of strains of <i>Agaricus bisporus</i> for yield and chemical composition	HA Hadwan, MT Alkaisey, MN Al-Tikriti, Sr Alani and BL Dhar
7	Indoor cultivation of the straw mushroom <i>Volvariella volvacea</i>	Tricita H Quimio
8	Mushroom Production – an income generating activity for the landless women	A Savithiri, S Soundararadjane and RS Shantakumar Hopper
9	Records and Reports
