

**Mushroom Research Vol.5 (1) 1996**

SN	Title	Authors
1	Improvement in feed value of paddy straw by <i>Pleurotus</i> cultivation	S Dhanda, HS Garcha, VK Kakkar and GS Makkar
2	Cotton stalk spawn of <i>Pleurotus sajor-caju</i> and the yield of mushrooms	AA Kathe, RH Balasubramanya and VG Khandeparkar
3	Performance evaluation of five species of <i>Pleurotus</i> (oyster mushroom) in Kerala	AV Mathew, G Mathai and M Suharban
4	Prevalence and interaction of competitor and parasitic moulds in <i>Agaricus bisporus</i>	SR Sharma and B Vijay
5	Yield loss in <i>Pleurotus</i> spp. Caused by <i>Trichoderma viride</i>	SR Sharma and B Vijay
6	Seasonal variation in contamination of spawn and yield of <i>Pleurotus sajor-caju</i> (Fr.) Singer in a commercial farm in coastal Karnataka	VK Moorthy and R Chandra Mohanan
7	Factors affecting cellulose production in <i>Volvariella</i> , the straw mushroom	Urmila Gupta, Roma Kalra and RP Phutela
8	Effect of whey concentration on the quality of whey based mushroom soup powder	Sudhir Singh
9	Dehydration and steeping preservation of paddy straw mushroom ( <i>Volvariella volvacea</i> )	Alpana Singh, Gp Keshervani and OP Gupta
10	Economics of mushroom cultivation under natural conditions of the sub-tropics – a study	BS Chandel and BC Suman
11	Agaricales from Wester Ghats-III	KB Vrinda, CK Pradeep and TK Abraham
12	Some studies on an edible wild fungus <i>Phellorinia inquinans</i> Berk, in Rajasthan, India	YK Sharma and Anila Doshi
13	Evaluation of <i>Cantharellus cibarius</i> fungal pellets for preparation of mushroom woup	NS Pradeep, KB Vrinda and TK Abraham
