

8th International Conference on Mushroom Biology and Mushroom Products

“Structural, Antioxidant and Functional Properties of β -Glucan Extracted from Edible Mushrooms

Agaricus bisporus, Pleurotus ostreatus and Coprinus atramentarius”

Presented by

Asma Ashraf Khan

Research Scholar

Introduction

- What would the world be like without fungi?
- Mycologists — find it difficult to envision a world without fungi.
- Because they know these organisms are integral to almost every facet of ecology, agriculture, and medicine.
